PUBLIC INSTRUCTIONS

(Please Read)

1. Public are directed to view the cars whilst standing within the markers indicating the limits of the controlled public area - viewing outside those areas indicated is prohibited.
2. Public must not stand in prohibited areas and must at all times stand behind the bunting/tape or barriers which mark the public area.
3. The instructions of the Spectator Marshals must be obeyed. The Spectator Marshal has the power to have a stage postponed until the Public View Point is controlled to their satisfaction.
4. It is prohibited to ignore the public instructions and find your own way around. Not only is there a danger of meeting up with an oncoming vehicle, but many roads have wash-away, collapsed bridges, etc. which are potentially hazardous for the driver. The main public route has been surveyed and is safe.

DO'S AND DON'TS OF SPECTATING

1. Cars under competition conditions can lose control and leave the defined road at any time. Do not stand in any areas which are not authorised, or which are contrary to the advice of the organisers and officials/marshals.
2. Be prepared. Weather wise, bring hats, ground cover, sun screen and protection in case of rain or cold weather. Food and drink outlets may be provided at the Public View Point (refer to public instructions), but if not, ensure you have some of your own food and drinks available.
3. Park your car sensibly so that it will not obstruct emergency vehicles, competitors, service crews or other members of the public. In all cases obey parking instructions given by supervising officials. It is usually best to park your car facing the way out.
4. Do not try to emulate drivers. Remember that if you give cause for complaint it will reflect badly on the event and the sport as a whole. Drive carefully both to and from Public Viewing Areas and be ready to give way if necessary, on narrow stretches of road.
5. Please do not take dogs or young children to Public View Points. If you have to, make sure they are completely under your control and please make sure that animals and children do not get in the way of competing cars or mechanics or officials when they are working.
6. Do not light fires (unless otherwise permitted to do so in a safe environment) or smoke in the Public View Points. Do not smoke near a car that is being serviced or refuelled.
7. At all times keep clear of controls, including from the timing marker to the control area. If control officials ask you to move, please help them by doing so - remember they have a job to do which can be difficult enough as it is. If you do want to see a control point in action, remember to stand well back from the control area.
8. Take your entire litter home with you - it is handy to have a bag or carton in your boot. Litter left at Public View Points reflects badly on the event.
9. At service points do not crowd mechanics when they are working. They would not appreciate it. Neither will you if someone drops a wheel or a sump guard on your foot!

FROM THE EVENT DIRECTOR

Welcome to the 2025 Lovells Alpine Rally of East Gippsland! It's been a long wait since the event last ran in 2022, and we're thrilled to be back once again in the beautiful East Gippsland region. The action promises to be spectacular, with some of the best Drivers and Classic Rally Cars from all over Australia and New Zealand set to battle it out for top honours.

It takes a veritable "Army" of Volunteer Officials to conduct an event of this size and calibre, and they have given their time to make this rally possible. They are there to protect your safety, so if they give you instructions on where to stand to watch the cars, please comply with their request. At the very worst we will be forced to halt the cars if you're in a dangerous location, until such time as you move to somewhere safe, so please do the right thing. This guide contains diagrams of each location that indicate where you can and cannot go, and these areas are planned specifically with your safety in mind.

The same applies with the way you move around the forests in between the Spectator locations. Please drive with caution, particularly on the gravel roads, take all of your rubbish away with you, and park with consideration for others. Note that we need road access to the Spectator locations constantly throughout the event (for Safety and Course officials) so please don't block any roads. We have included QR codes in the guide to get you from one place to the next, but as with all navigation, please drive responsibly and be aware of your surroundings; the same applies to the competitors out on the stages.

I'd like to particularly acknowledge the East Gippsland Shire Council, DEECA, local authorities, and especially the local communities who have embraced the 2025 Lovells Alpine Rally of East Gippsland. Their ongoing support makes this event possible, and we're incredibly grateful for the manner in which we are always welcomed back in the region.

It's going to be a fantastic weekend of Classic rallying out in the forests, and I very much hope you enjoy the experience; the thrills, hopefully not too many spills, and the best drivers and cars putting on a spectacular display. Have a great time, stay safe, and enjoy the action!
